Manufacturing Transformation & Operational Excellence

Advisory & Consulting · Western Canada

VANCOUVER, BC · bharat@bharatkumarsharma.com · bharatkumarsharma.com · linkedin.com/in/bhrat321

HOW I HELP

Operational diagnostics

Loss studies, OEE and VSM
baselines that surface the
capacity hidden in the losses.

Reliability & CI design

TPM, standard work and daily
management built to sustain
long after handover.

Capability building

Coaching supervisors and
operators to own improvement
after the project ends.

SELECTED IMPACT

+22%

OEE uplift on a turnaround line

\$120K+

annual savings from one Kaizen

6+ yrs

on the floor & in CI leadership

THE ENGAGEMENT · 90-DAY PLANT DIAGNOSTIC

01

Baseline

Loss study, OEE, VSM

02

Design

Standard work, daily mgmt, KPI board

03

Build capability

Frontline coaching, A3s, Kaizen

04

Sustain

Handover to line leadership

Adaptable to a 90-day plant
diagnostic, a reliability sprint,
or a full transformation.

The goal is always the same:
capability that outlasts the project.

“Bharat balances strategic thinking with hands-on execution to provide a measurable impact. His communication skills are top notch.”

Robert Foschia, P.Eng. · Manufacturing & Operational Excellence Leader

INDUSTRIES

Automotive · FMCG · Pulp & Paper · Industrial packaging & logistics

Let's talk about your operation.
